Press Release

On September 13th, 2013 the Bates County Sheriff's Office took a theft report of farm equipment and scrap metal. The theft occurred on N Highway south of East 52 Highway. The victim reported that he had caught several subjects come and go on a piece of property that he had stuff stored on. The subjects were stealing scrap metal, weed eaters, chain saws and implement tires. The victim estimated that this had been occurring over several months. The victim had installed several game cameras and caught subjects on video. Total of the thefts exceeds \$2000.00

In late October, Detectives began identifying the subjects on the video. Since then two warrants had been issued by Bates County Prosecutor Hugh Jenkins.
