On October 3, 2017 a Sergeant with the Bates County Sheriff's Office took a theft report in rural Adrian. The victim stated that while his truck was parked in a field someone stole his wallet that contained his driver license and credit cards. A Pune dart gun used for medicating cattle was also stolen out of his truck.

The victim's credit cards had been used to make purchases around \$1500.00. One of the transactions was made at Casey's in Drexel. There was no video available because the card had been used at the pump to purchase fuel.

A neighbor stated that on the day of the theft she had seen a silver car pull halfway down her driveway but when the driver saw her he quickly turned around and headed back out. The neighbor got in her vehicle and followed the car to AA highway at which time the car turned left in front of an oncoming car and she quit following him. The car she followed was a silver two door car that was severely dented. It had a strap holding the trunk shut. She did not get a license plate number.

If you know anything about this crime or may have seen this car please contact a Sergeant at 660-679-3232.
