On February 8, 2016 the Bates County Sheriff's Office had several complaints about possible drug traffic that was coming in and out of a room at the Days Inn Motel in Butler, MO. As a result of the investigation, several subjects were taken in to custody. Several items of drug paraphernalia and 11 grams of methamphetamine was seized out of the motel room. One of the subjects who was arrested was identified as George McKee (DOB 4/1/1985) from Montrose, MO. McKee had his parole revoked because of this incident. We are expecting more charges to be filed by the Bates County Prosecutor on Mr. McKee. The other subjects who were taken into custody were later released because they were not believed to be involved in the narcotics activity.
